

# Installation Online Bible DVD ROM 0807

## **Please read the following instruction first.**

1. Close all programs and reboot your PC. (If you get a prompt to reboot again before completing the installation, just ignore it)
2. Insert the Online Bible DVD ROM into your DVD-drive.
3. Click the Start button and choose Run.
4. In the Command Line field of the Run dialog that opens, type D:\setup (where D is your DVD-drive) and click OK.
5. Select the language you prefer and click on 'OK'.
6. When you've shut down all programs, click on the button 'OK'.
7. Click on the button 'continue'.
8. Read the consumer license and accept it by clicking on the button 'Accept'.
9. In the Configure User System dialog box, select the following as required, and then click 'OK'.

**Install CD on the Hard Drive.** Leave this option checked in order to run the Online Bible from your hard drive, not the C. This is recommend especially for Windows XP and Vista. Install in the selected language groups from the DVD to your hard drive requires 2 Gb and make the program run much faster.

Uncheck this option *only* if you intend to use the DVD every time you run the Online Bible program, or if after the install you want to copy only some of the modules to your hard drive. (this can also be done later from the Tools menu).

**Install Locked Versions.** Check this option only if you have the **unlock codes** for example \$Afrikaans, \$NKJVMessage or other royalty versions. (This can also be done later from the Tools menu)

**Install Optional Alexander Scourby Audio CD.** Choose this options to install the Audio Bible. To use this options you must have purchased a separate CD of Alexander Scourby narrating the King James Bible. The Scourby CD requires 300 MB of hard drive space unless you run it from the CD.

**Install Screen reader Mode.** Choose this option to allow blind users to use a screen reader like Jaws or Windows Eye for the blind. (This can also be done later from the Tools menu.)

**Install Supplementary Material.** Choose this option only if you have the CD of extra material from Europe.

10. Choose the language group(s) you would like to use modules from and click on 'OK'.
11. Click 'OK' to move through the following dialog boxes:

### **Screen resolution.**

#### **What is new.**

**New Fonts.** Note that Greek and Hebrew fonts will not be usable until you reboot the PC following the installation.

12. After the configuration is completed the Online Bible Tutorial is displayed on screen. Read all instructions in the Online Bible Tutorial carefully. Click on the button 'Exit' to enter the Online Bible. (If you chose to copy some modules to your hard disk, this will happen first after clicking 'Exit')

## Installation Unlockcodes

If your invoice mentions an unlockcode, i.e. \$Afrikaans or \$MessageNKJV follow the next instructions:

1. Start your Online Bible program: click in the menu bar on *Tools, Activate Locked Materials*.
2. Behind *Name* there is a bar. Fill in your name exactly as it is mentioned with the code on the invoice, including dots and spaces. (When your name on the invoice is mentioned as Jansen, Mr. P., then you can't type e.g. Jansen, P. or Mr. P. Jansen. Only when you type Jansen, Mr. P. the Version can be unlocked.
3. Choose from the list *Locked Version ID* the abbreviation of the Bible or the Commentary you would like to unlock with the code.
4. Behind *Access Code* there is a bar. Fill in the code which is mentioned at the invoice.
5. Click on OK. The module is unlocked now. On the screen you can see the same window. The command line behind *Access Code* is empty and the abbreviation of the unlock code has disappeared from the list of locked versions. To unlock another Version, repeat the steps mentioned above. To close the window, click on *Exit*

## Installation

May problems occur during the installation of the unlock code(s) you can obtain technical support as follows:

- Internet: [www.onlinebible.org/html/eng/support](http://www.onlinebible.org/html/eng/support)
- Our FAQ contains answers and solutions to most reported problems

## If you can't find \$Afrikaans or \$MessageNKJV

If you can't find the modul \$Afrikaans or \$MessageNKJV in the list to unlock and you did not install the unlock for these modules before please download the English software edition 2.20.02 or later from [www.onlinebible.org](http://www.onlinebible.org) (not onlinebible.net) and install this software update.
